NEW

THE MOST VERSATILE WEDGE IN GOLF

- New ATV (All-Terrain Versatility) Sole lets you play all critical shots with one wedge: chip, pitch, flop, explosion from sand, out of the rough, off a tight lie
- Bounce angle changes depending on how the head and face are positioned
- New all-milled groove design and micro-texture across the face generates more spin within R&A rules
- New lamkin wedge grip extends further down the shaft for improved traction when choking down
- New Tour-Inspired shapes with a beautiful non-plated Tour Satin finish

SPIDER RETURNS WITH A VENGEANCE

- White head contrasts with turf to make aiming dramatically easier to square the clubface
- White finish eliminates glare and "hot spots"
- Black, easy-to-see "basketball court" alignment lines make it easy to aim
- PURE ROLL technology promotes forwardspin for smooth roll
- Surlyn face insert delivers soft sound and feel
- Two 4-gram movable weights contribute to making it the most stable of any TaylorMade putter

TRAINING AIDS

N2171901

TECHNOLOGY

- Consistency in putting stroke path
- Instant putter face alignment feedback
- Improved muscle memory for proper putting stroke path
- Improved putting tempo
- Visual and audible feedback on putting path flaws

Instant putter face alignment

- The TR3 True Path can be used indoors or outdoors
- Can be used with one rail, two rails, and with or without the base
- Is lightweight and portable, fitting easily into a golf bag pocket

TR3 TRUE PATH

OVERVIEW

The TR3 True Path putting trainer was designed after years of studying the putting strokes of Tour players, top PGA club professionals as well as top amateurs. The TaylorMade putting lab data of thousands of strokes was analysed to determine common faults and the best techniques of some of the best players in the world.

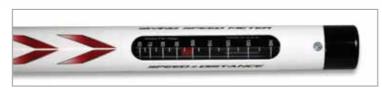

Face angle and putter path are both important in successful putting. The best putters have a path that is no more than 2 degrees outside or inside the line.

TR3 SPEED STIK

SWING SPEED METER

N2112401

TECHNOLOGY

- 650 gram Speed Stik overloads the swing, developing golf muscles for
- Speed Meter measures swing speeds from 60 to 140 MPH delivering instant swing feedback
- 46 inch length promotes a flatter swing plane that corrects steep out-to-in or over-the-top swings
- New tapering grip area allows for a multi-compound grip that delivers maximum traction under high speeds
- Safety grip cap prevents slippage
- Collapsible design allows for easy storage
- Alignment Arrows allow the Speed Stik to be used as an alignment aid while practicing
- Safety grip to prevent slippage
- 650 gram Speed Stik overloads the swing, developing golf muscles for strength and speed

The TR3 Speed Stik by TaylorMade is a classic training aid taken to the next level to match the needs and expectations of Tour professionals, Club Professionals, and average golfers alike. While the TR3 Speed Stick will accurately measure your swing speed, that is only the beginning of the game enhancement features, including strength training, grooving the proper swing plane and improving tempo. Updated and redesigned to be more useful and more manageable, the TR3 Speed Stick will be an integral part of your training program.

ALIGNMENT STIX

OVERVIEW

One of the most-used training tools by Tour Professionals and Club Professionals worldwide, the classic alignment sticks have been taken to the next level with TaylorMade's TR3 Alignment Stix.

One of the most common areas of improvement that needs constant monitoring is alignment, and with the TR3 Alignment Stix we have added functionality that allows golfers and teachers to more efficiently work on ball position, targeting, swing plane, weight shift, and more. Built to last, designed for versatility, and tested for performance.

• Stretch the strap over the knuckles creating a secure grip

• The Grip trainer will hold your hand in place and help learn a correct grip

• Performance hook and loop closure

TR3 GRIP TRAINER

TECHNOLOGY

- Ergonomically designed and strategically positioned seams enhance comfort and provide a consistent fit
- Performance hook and loop closure

CABRETTA LEATHER

• Black ion interior cuff wicks moisture and enhances comfort and performance

N2133501

- Connection Pod allows easy and simultaneous adjustment
- Slide and snap connection holds stix at perpendicular angles
- Positioning lines enable consistent ball placement

Positioning lines

- Alignment Stick with pod
- Club alignment
- Nylon Pod

SPEED SLEEVE SPEED SLEEVE

SPEED SLEEVE

OVERVIEW

With the TR3 Speed Sleeve, any club in the bag can be quickly and easily turned into a multi-dimensional training aid. Many weighted training tools are available on the market, but few of them are hittable, much less hittable with clubs from your own bag.

The benefits of a weighted training system are simple: increased speed, better tempo, overall muscle strength, and ultimately increased distance on full shots, and better control and tempo on chips and putts.

Accomplish all of this with the added benefit of training with the same clubs you will take on the course.

N2133401
